

**Experience the Power  
of AI & Resilience**

**GRC**

**SUMMIT 2026**

LONDON ✦ JUN 2-3

**GRC Simplified.  
Outcomes Amplified.**

A wide-angle, nighttime aerial photograph of the London skyline. The River Thames flows through the center, with the illuminated Tower Bridge and the modern, curved architecture of the City of London visible. The background is filled with a dense forest of skyscrapers, many of which are lit up with blue and white lights. The overall scene is a vibrant, high-angle view of the city at night.

OPENING KEYNOTE

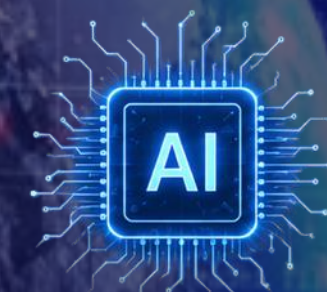

# Orchestrating The AI-Native Future of GRC

**Gaurav Kapoor**

Co-founder & Vice Chairman, **MetricStream**

**01**  
**AI & SHADOW AI**  
**EXPLODED**

**02**  
**CYBERATTACKS**  
**GO BEYOND DATA**

**03**  
**GEOPOLITICAL**  
**FLASHPOINTS**

**04**  
**ELECTIONS. POLICY**  
**UNCERTAINTY**

**07**  
**BOARDS SHIFT**  
**THE QUESTION**

**06**  
**TRUST**  
**UNDER SIEGE**

**05**  
**REGULATORY**  
**TSUNAMI**

IN JUST ONE YEAR....

# EVERYTHING CHANGED

# ...Led to Five Major Strategic Shifts in GRC

## 01 AI GOVERNANCE

Fastest  
Governance  
Challenge in  
Enterprise History

## 02 RESILIENCE REDEFINED

Cyber moved  
from IT -  
Resilience Issue

## 03 GEOPOLITICAL RISK

Quantification &  
Modeling became  
a Core Business  
Variable

## 04 TRUST OPERATIONALIZED

Trust Became a  
Strategic  
Enterprise Asset

## 05 GRC NERVE CENTER

Back Office  
to Strategic  
Command

**Organizations that adapt, govern & respond faster — will win.**

# Evolving Expectations

Increasingly lower tolerance for traditional user interaction model

*Data capture, reporting, workflows, clicks*

Higher demand for agile change management

*Due to fast changing business needs – configuration, extensions)*

Need for faster Integration with transaction systems

*Continuous monitoring on the rise and competition offers a lot more*

Surging innovation expectation around AI

*Internal AI groups and competition showcasing the art of the possible*

Rising expectations on 'Outcomes'

*Quick time to value*

GRC

*Reimagined*

through AI

# The architecture of enterprise GRC is being fundamentally reinvented

01

System  
of Record

02

System of  
Intelligence

03

System of Decisions  
and Actions

### Deep-Domain Products

- AI-native experience across GRC workflows
- Persona specific Assistant & Agents
- Deep context

### AI Native GRC Platform

- Agent orchestration
- Inference APIs
- Model Lifecycle Management
- GRC Domain Specific Language

### Customer Outcome Engineering

- Dedicated GRC and AI Forward Engineering
- Model tuning with enterprise data and context
- Custom AI models and use case expansion

## AI Governance

Observability & Explainability

Guardrails, Prompt Governance

Tracing & Auditability

Evals & Benchmarking

Privacy & Data Protection

**Autonomous  
GRC Workflows**

---

**Outcome  
Assurance**

---

# Continuous Sensing

*Emerging events, indicators inside & outside the org*

Emerging risk identification

Threat exposure monitoring

Reg. change, Compliance violations

# Intelligence

*Proactively detect gaps, trends, anomalies*

Narrative  
summarization

Risk, control,  
policy gaps

Action  
recommendations

# Decision Support

*Expert judgement on prioritization*

Risk & control  
prioritization

Issue severity  
ranking

Risk response, action  
prioritization

# Autonomous GRC Workflows

*Automatic or guided actions at scale*

Automated risk assessment

Evidence gathering for controls

In-workflow recommendations

# Outcome Assurance

*Ensures consistency, quality of outcomes*

Audit closure insights

Remediation quality checks

Closure effectiveness signals

# One Platform | Every Agent

**MetricStream** will power a vibrant agent ecosystem — built by us, our partners, and you — governed from a single trusted core.

## Speed

Pre-built agents live in days, not months

## Scale

Partner & customer agents multiply value fast

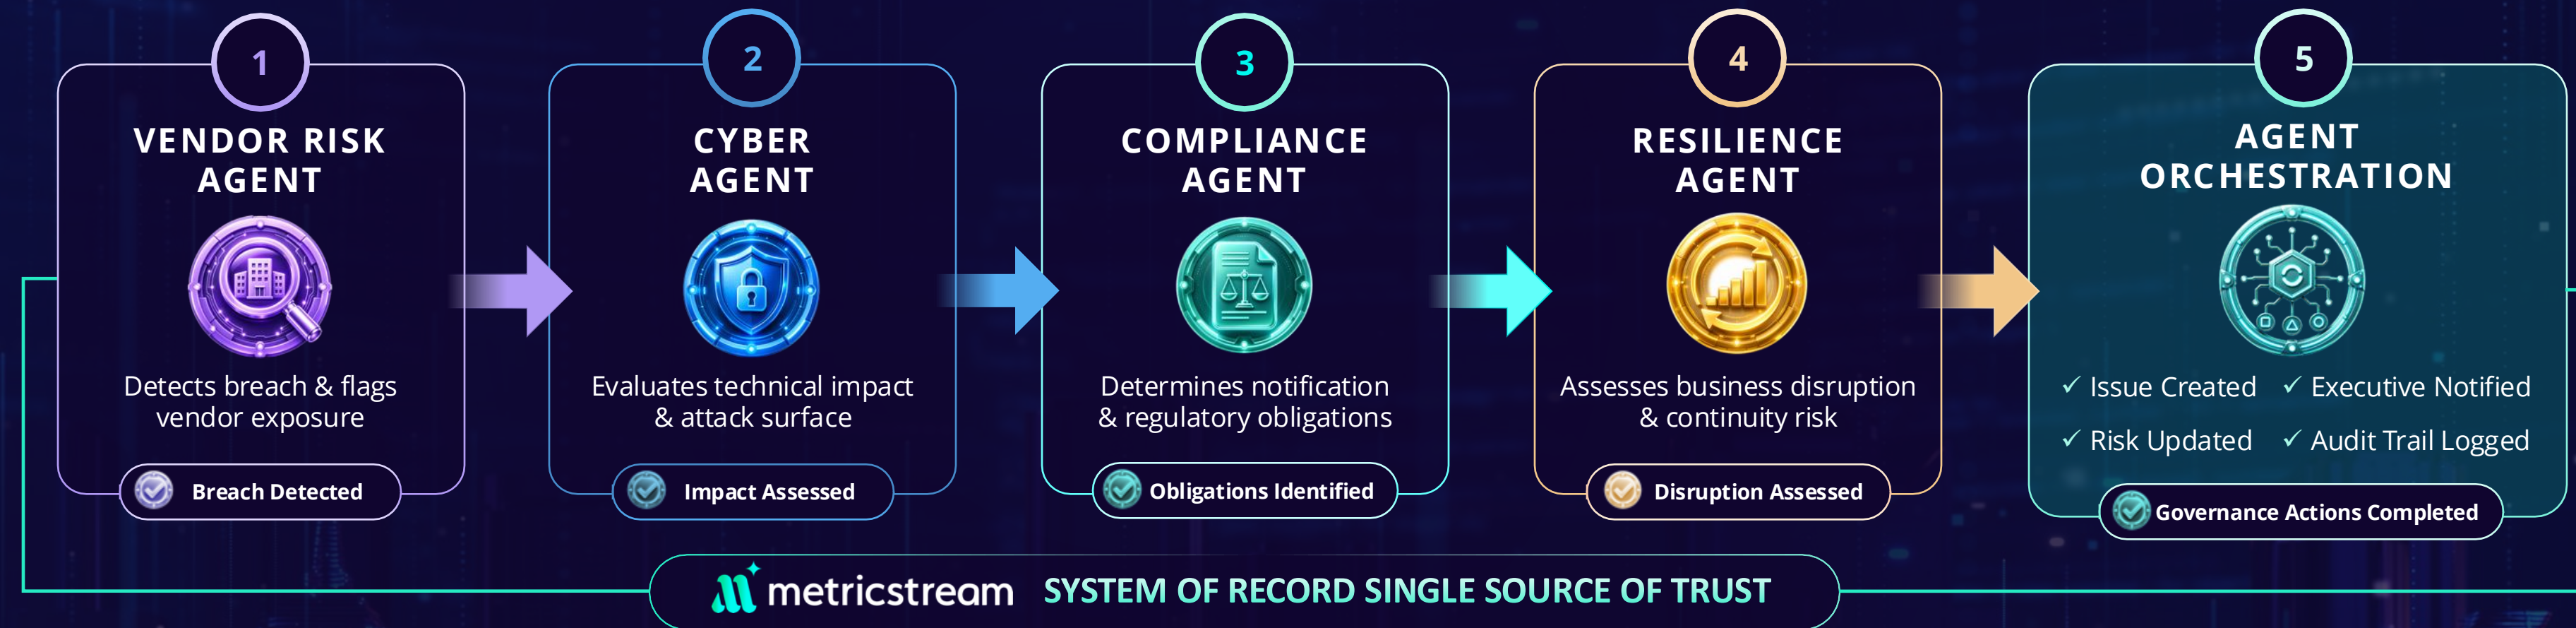

## Trust

Every agent governed, audit-ready by design

# Agent-To-Agent Orchestration in Action

*One Event. Many Agents. Trusted Outcomes.*

**ORCHESTRATED BY AGENTS. GOVERNED BY TRUST**

**MetricStream** is not just responding to market change. We are **defining it**

• Deep **GRC Context**

• Purpose-built **AI**

• **Orchestrating** your GRC world

• With ***Speed***

# How We're Transforming GRC for You

## **Innovation** \_\_\_\_\_

**Connected: Agents & Assistants to Simplify Experience**

**Continuous, Always on GRC**

**Cognitive Intelligence & Decision Velocity**

---

## **Customer Experience** \_\_\_\_\_

**AI-enhanced Customer Engagement / Adoption**

**Customer Outcomes & Forward Engineering**

**Industry Specific Collaboration & Benchmarking**

---

# AI in GRC is a **Shared Journey**

## What you have to do

---

- Rethink GRC Processes to Leverage Automation
  - Strengthen Your Data Foundation
  - Making AI Upskilling a leadership priority
  - Make 'Business Upskilling' an even bigger priority
  - Invest in AI Governance
-

## OUR VISION ✨

---

Make GRC easier for the millions of people around the world who participate in and drive its outcomes.

Delivering

# Streaming **GRC**

a continuous, connected system  
that

**thinks | advises | acts**
